

The Max Planck Institute for the Physics of Complex Systems (MPI-PKS) offers

Emergency Fellowships

to researchers at all career stages in Ukraine. Applications are considered continuously. The fellowships for a research stay at MPI-PKS in Dresden of duration of up to one year can be commenced immediately.

The successful candidates are expected to have a background and interest to work in one or several theoretical research fields pursued at the institute, broadly in the field of cooperative phenomena in animate and inanimate matter, covering biophysics, ultracold gases, ultrafast physics, and condensed matter theory. Novel directions are also welcome.

To apply, please fill the online application form

http://www.pks.mpg.de/Emergency_Fellowships

and upload your application package, including a cover letter, curriculum vitae, list of publications and statement of research interests. Applicants already holding a PhD should additionally include a research proposal and three most relevant publications.

The complete application package should be submitted in a single pdf file. Please also arrange for two letters of reference to be submitted via

<http://www.pks.mpg.de/~visitors/reference>. If providing such information runs into logistical difficulties, please get in touch by whatever means and send what information you can.

In case of any questions, please contact visitors@pks.mpg.de.
